## 3D LUT Creator - официальная страница программы

Цветокоррекция фото и видео по-новому!

---

Более полутора лет непрерывного программирования и исследований в области цвета, более 250000 строк текста, и наконец это свершилось! Сегодня вышел 3D LUT Creator версии 1.0!  
[конфети, шампанское, овации] =)

Что появилось нового:

- Цветовые пространства HSP3 и Itten HSP;
- Сетка в форме паутины;
- Пакетная обработка фотографий, а также пакетная конвертация равов в LogC (доступна даже в демо версии);
- В корне переделаны кривые, появилась новая кривая Sat-Sat;
- Новые инструменты для работы с кривыми (и новые иконки благодаря Олегу Александрову и Александру Шляхову);
- Работа с альфа-каналом;
- Возможность просмотра изображения в отдельном окне;
- Окно истории со списком внесенных изменений;
- Выключатели инструментов прямо на вкладках;
- Возможность сохранения и загрузки выбора точек на вкладке A/B;
- Новые режимы Degradе в кривых;
- Возможность сохранения LUT'ов для использования в графических движках Unity и AmplifyColor;
- Переход на последние версии библиотек FreeImage и LibRaw;

И много всего другого. Скачать обновление можете уже сейчас из личного кабинета на сайте [3dlutcreator.ru](http://3dlutcreator.ru)
